

CHAPMAN
DRIVER SEATING

®

TRIM DEVELOPMENT

Driver seat trim is a major feature of this year's show. Chapman have a number of seats on display using their latest trim designs aimed to give the seats a more modern feel whilst adding comfort features and a better utilisation of materials.

Chapman are delighted to announce that they are currently working closely with Nubax to trial the ProBax® Seating Technology within their driver seats. ProBax® prevents the pelvis from rotating backwards when sitting, leaving the seat user to sit in a more upright, natural and healthy posture. The "S" shaped curve greatly reduces strain on the neck and back and it improves blood and oxygen flow through the body and reduces muscle fatigue and cramps and improves concentration.

**THE MAJOR BENEFIT IS
INCREASED COMFORT AND
GREATER SUPPORT FOR THE
USER AS MORE OF THE BACK
IS IN CONTACT WITH THE
SEAT BACK.**

Advanced Seating Technology

**COME AND TRY A
SEAT FITTED WITH
PROBAX® SEATING
TECHNOLOGY ON
OUR STAND.**

PSV TRANSPORT

We are delighted to announce that we have recently appointed PSV Transport Systems as an authorised distributor for Chapman seats and spares in the aftermarket. Their full contact details can be found in the Spares section of our website and they are also at the show on Stand J96.

SIDERISER 2

Some of our seats on show feature the next generation of our SideRiser height adjuster – aptly named SideRiser 2 or SR2 for short! The concept of the unit is the same as the original, but with less moving parts and a different adjustment method and distinctive adjustment scale, these are likely to be much easier to use. Setting the seat takes seconds when entering the vehicle. The unit has been on a test vehicle with a major UK bus builder on a 10 year accelerated life test with no reported issues.

OFFICE SEATING

Chapman now have a range of office seats manufactured to the same high standard as their robust driver seats. These can be specified with a variety of trim options, with or without headrest and armrests or even embroidered with a special design. Come and try one of the seats on the stand and talk to us about how to enter our free competition to win one of the display seats!

SOCIAL MEDIA

We have now finally got our social media all set up. Follow us on Facebook, Twitter or LinkedIn for all the latest news as well as exclusive offers which will feature on social media first.
